Pagis, March 10 .- It is reported that the French Emperor intends either to enlarge or to reduces his force in consideration of the existing relations between the French and Austrian Empires. When inquired of, he shakes his hend—an act which is differently construed by different parties, but is thought to convey something very profound. In the mean time, there are a multitude of shallow conjectures upon the subject; for which, see the American and Foreign press generally on the arrival of

MARCH 11 .- Letters from Vienna of a late date give the cheering information that the Hon. Windy Kite, President of the W. X. Y. R. R., has succeeded in negotiating a loan upon the accurities of that corporation at extremely favorable rates—bonds bearing interest at fifty favorable rates—bonds bearing interest at fifty per cent, and secured by mortgage upon rolling stock, bringing from twenty-five to twenty-five and one fourth cents per hundred dollars. The money is to be used in paying to the stockholders a dividend of eight per cent, as was generously determined by a vote of the Directors at the last meeting.

The Evening Post's money article says: Money is very easy to get rid of in this city; but particularly hard to come at by those whose resources are limited. It is thought it would

resources are limited. It is thought it would be plentier if there was more of it. The low prices of stocks indicate a want of confidence in those securities, which might be obviated by

a pretty general payment of high dividends.

The leading articles of the New York press generally, to-morrow morning, and especially of the Tribune, Times and Herald, will be about as dull and inconsecutive as usual—a fact that is attributable to the dryness of the editorial brains.

The three men found dead upon the Plains, in July last, of which mention was made in some of the papers, are supposed to have been travelers. They are believed to have frozen to death.

Later advices give reason to apprehend that the three men spoken of in a previous dispatch, who were found dead—not in July, but in November—were murdered by a straggling party of Indians, whose horses they had stolen.

Still later and more authentic accounts from the Plains render it probable that the three men alluded to above-ten was the actual numher—were murdered by a party of emigrating Mormons, who first stole their horses and then killed the owners to prevent pursuit. The President, on hearing of the fact, has delegated a coroner's jury to sit on the remains.

The St. Louis Democrat gives further in-formation, obtained from Lieutenant Verges, who had just arrived from the Rocky Mountains, in respect to the ten men found dead on the Plains in July last. It seems that the re-port originated in the discovery, by a party of returning Californians, of an ancient Indian burying-ground. The coroner's jury has been countermanded.

LATEST.—An old trapper in the company of Lieutenant Verges is of the opinion that the spot spoken of as an ancient Indian burying ground, is nothing but a deserted prairie dog

The gentleman at Washington, who suffered under a recent attack of the Monroe doctrine,

will, it is thought, recover.

The individual who writes the columns of railway matters for the New York Herald, gets his board at the Astor House in consideration of his notices of arrivals of distinguished railway gentlemen, conductors, ticket clerks, freight agents, and the like, at that establishment. The process is becoming common elsewhere.

In the New York journals of this morning, it is conjectured that Mr. Seward has already made such arrangements and secured such support, that he will inevitably be the candidate of the Opposition in 1860; and again it is con-jectured that he has made no such arrangements, and secured no such support. It suspected that Mr. Douglas will not be a candidate at the Charleston Convention; and again it is suspected that he will be a candidate. It s thought that Mr. Chase stands before Mr. Seward in the affections of the people of the North; and again it is thought that he does not stand before him in the affections aforesaid. It is believed that Mr. Howell Cobb will be the strong man of the South for the next Presiden. tial campaign; and then it is believed he will Presidential campaign. These various conjectures, suspicious, thoughts and beliefs, have created a good deal of excitement.

Kansas-Serious Affray. LEAVENWORTH CITY, March 17.—The Times of this city publishes an account of an affray at Halton, Calhoun County, growing out of a political meeting, resulting in the wounding of several persons, one dangerously. During the meeting, which was in pursuance to a call to organize the Republican party, a disposition was manifested by persons, politically opposed,

to break it up.

At the close, a general meles ensued, in which the assailants, said to be pro-slavery men, were compelled to retire.

Resolutions were afterward adopted, order-

ing the participants in the attack to leave the Territory, under a penalty of death; and a company was organized to carry the same into Judge Halton, Probate Judge of Halton County, is reported to be severely wounded.

From Washington. WASHINGTON, March 17 .- The Cabinet met at

an unusually early hour this morning, and re-sumed the consideration of the affairs of the Post-Office Department. The question of an extra session of Congress is still undetermined, the members being divided

in opinion. There is, however, the best authority for stating that there will be a decision on the subject before next Sunday, so that the President's Proclamation may go out by the

next Pacific steamer.

The Grand Jury, to-day, brought in a presentment against Mr. Siekles for murder, and there is no doubt a true bill will be found, when there is no doubt a true bill will be found, when a day will be set for the trial. Whatever may have been its proceedings relative to Mr. Butterworth, it was the understanding about the Court-house that it will take no further action on the subject of implicating him as an accessory. From what has just transpired, the trial will furnish an amount of scandal far exceed-ing what has already been furnished the publie, and bring reluctantly to the witness stand persons who have not heretofore figured in the

TORONTO, March 17.—There is great opposition manifested to Inspector-General Galt's new Tariff Bill. Many members of Parliament who have heretofore supported the government, have gone into the opposition ranks. The vote on the measure will probably be taken on Friday. with a fair load. The James Wood got off for Pitts-burg, with 500 tunn of freight; she taken on 380 live hogs at Portsmouth. The Mariner passed up for the same port, after taking on 30 tims freight at this port. The Conewago got off for Nashville last even-ing with a fair trip; she took on 300 balos hay at this port, and has engagements for 200 bales more below here. The Hudson, for the same port, left with a splendid trip, consisting mostly of dry goods. The Glendale left for Memphis with the finest trip of the South.

The Flora Temple cleared for Des Moines River, flying light; she expects to fill out at Louisville. The Queen City left for New Orleans with 500 tuns freight; she has engagements at Madison.

By special dispatch from Pittsburg we learn that the river is falling, with nine feet six inches water in the channel. The steamers Potonac and New York have arrived, and the Cremona departed. The Key West and Commodore Perry are due here from Pittsburg to-day.

The Louisville Courier, of yesterday, has the fellowing:

lowing:

The river commenced falling last evening, and had fallen an inch at dusk, with scant nine feet water in the Canal, by the mark. On the Falls there were scant seven teet in the pass. The weather, yesterday, though rather cool, was clear and more pleasant than has prevailed for several days.

The Southerney, from Memphis, encountered avery heavy wind on the night of the 14th, which broke her wheel. She had to tie up six hours regairing.

The following we clip from the Courier of yesterday, to recent tenths of the 14th. in regard to the new steamer Duncan F. Kenner,

built at that port:

The Duncan F. Kenner—Trial Trip.—Testerday, Capt. Cutten started the Kenner on a trial, to test her machinery, and see that all about the engines was in order. She had steam up in a short time, and went about uine miles below New Albany, and returned in the space of an hour, and with steam at one line up to a pressure of 125 pounds. Everything was found to work to perfection, with scarcely a leak in any of the joints of the boliers or pipes, and the machinery moved as regularly and evenly, as if it had been run for six months instead of only an hour.

The boat "handled likes top," and the pilot had no trouble whatever in steering, and she moved through built at that port:

for the election of Road Supervisors by districts. the water easily and emocthly, giving abundant evidence that her model is faulties, and when put to the test, her speed will be unsurpassed.

TOWNLEY, OF MOUNT AUBURN, has the pleasure to inform the public that he has manufactured an entirely new and elegant HEE HIVE, which has been rewarded the first premium for twenty-one years, and has been found, by numbers who have them now in operation, to be the inest effectual preventive against the Bee Moth, or any now in use. Bees can be TAUGHT To work in glasses of various kinds, such as tumblers, jars, globes and frames. They can be adapted to family use, either in town or country; in pariors, feel-rooms, attics, yards, or where fancy dictates, with perfect safety. Information can be had at the above place as to the best manner of changing beer from one live to another, and also, of making two swarms from one. And should any cause of complaint arise, it will be immediately rectified

GRATIS.

Also, for sale, a Treatise on the cultivation and management of Honey Bees, by the subscriber, EDWARD TOWNLEY, Cincinnati, Ohio.
